FEDERAL COMMUNICATIONS COMMISSION
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Description of Permissive Change

Dear Sir/Madam,

We, TELTRONIC S.A.U., hereby authorize Bay Area Compliance laboratory Corp to act as a laboratory for testing and test report generation for the following project(s):

FCC ID: WT7PTRKTHTT500800, Model: HTT-500 806-870 MHz

Pursuant to Sections 0.457 and 0.459 of the Commission's Rules, we hereby request confidential treatment of information accompanying this application as outlined below.

This project is a Permissive Change II submission with the intent of increasing the equipment capabilities by adding a new antenna model. Previous antenna was a ¼ wave antenna and, from now on, the equipment will support two different antenna models: ¼ wave antenna and ½ wave dipole.

Due to this change in the antenna, neither the maximum output power nor the RF characteristics of the equipment change.

There are not any hardware changes in the equipment for the new antenna. It is an accessory upgrade only allowed and controlled directly by the grantee (TELTRONIC, S.A.U.).

Yours faithfully,

A handwritten signature in blue ink, appearing to read 'Jose Roman', with a long horizontal flourish extending to the right.

Jose Roman Gimeno
