Columbia, MD 21046

Subject: Extended Frequencies/Rule Part Justification

FCC ID: WT7PTRNKTMB800

To whom it may concern:

The MBS Unit -N is a base station designed to operate in the frequency band 806-825/851-870 MHz with 20 kHz and 22 kHz bandwidth.

To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Teltronic S.A.U. is requesting that the FCC lists the frequencies 806-824/851-869 MHz with Part 22 and 90 on the FCC Grant.

For the FCC's Rule Parts 90 applications, this radio is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc. Equipment programming is the responsibility of Authorized Service Personnel. Also, the radio complies with 47 CFR Part 90.203(e), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Per the FCC's KDB 634817 guidance, "as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies".

Yours faithfully,

A handwritten signature in blue ink is written over a circular blue stamp. The stamp contains the word 'teltronic' at the top, a stylized 'T' logo in the center, and 'S.A. Unipersonal' at the bottom.
